Serving the Children of the World™

CLE season is upon us! And it is exciting!

Club Leadership Education is all about club leaders for our next Kiwanis year. It's about taking time now--with dozens of other club leaders--to better prepare for success during the coming term of service. It's about sharing in a Kiwanis moment and participating in leadership concepts. It's about having fun, and it's about growth.

This year begins the transition of the education resources to focus on improving the club and member experience. For those leaders who have already attended a CLE session in previous years, new information and resources will be introduced. Almost everything in Kiwanis happens in our individual clubs. As club leaders, you will have a unique opportunity to strengthen your club's appeal to prospective members. By attending the CLE session, you will walk away with tangible tools to take back to your club to begin this process with your club members.

Please plan to attend your local CLE session. Come prepared with ideas AND an open mind. The responsibility for having fun in organized community service is a role we all voluntarily share. CLE focuses on preparing for the role of Club President and Club Secretary, but all interested Kiwanis leaders are welcome at the session [that is,...if, for the day, they can think like a future President or Secretary! And, I do hope you are one of those people.] Please plan to attend.

There is a \$30 fee to cover the costs associated with having the program which includes lunch. Most sessions have a pre-registration, otherwise, attendees may register at the session.

For more specific information, contacts for PNW sessions are posted on the schedule at:
<http://www.pnwkiwanis.org/PNWKIResources/cle.html>

Please accept my sincere best wishes for an enjoyable CLE session and success in preparing for a fine term of Leadership in Kiwanis.

Michael Duffy, Chairman
Education and Training
Pacific Northwest District
Kiwanis International
