

# C.O.I.N Creating Opportunities with Internships and Networking

**Objective:** Create a database of information that contains contacts to Kiwanian members and information about their careers. Kiwanian's have a wealth of information to share about their careers and our goal is to tap this resource to insure the academic and professional success of Circle K members. Whether Kiwanis members would be willing to answer questions about their career, offer internships, mentorships, or other contacts for employment, this database will serve as a bridge between college students and Kiwanians throughout the district.

**We Need Kiwanian support:** The goal is to have 75% of every Kiwanis club registered by July of 2003 so that the database can be up and running by the 03-04 school year. We ask that every member take a moment to fill out the survey and give thought to what they believe they can offer to college students. We know that every member has something to offer and we are looking forward to hearing back from all of the Kiwanis clubs throughout the northwest.

Each club president should mail a **single** packet of completed forms to:
