

Kids Against Hunger

A Program of Feeding Children International

The following information was made available at the Kiwanis International Convention in Montreal and I share it with you.

Kids Against Hunger was founded by Richard Proudfit, a Minnesota businessman, more than thirty years ago. He went to Honduras as a volunteer following a devastating hurricane and was profoundly affected by the starvation he saw among the children of that country. As a result he made a conscious decision to commit his life towards the enormous problem of world hunger.

Kids Against Hunger is a non-profit organization whose mission is to provide fully nutritious food for impoverished children around the world. Feeding programs, orphanages, schools, and clinic are the direct paths used to feed the children.

Kids Against Hunger packages a rice-soy casserole fortified with 21 essential vitamins and 9 minerals, dehydrated vegetables and chicken flavoring. This protein and nutrient rich formula reverses the starvation process and improves physical health as well as the child's mental capacity to learn. Each bag contain six servings and is prepared in less than twenty minutes by adding it to boiling water. Because of the volunteer driven support, they are able to produce each serving for only \$.23. Volunteer teams have packaged and delivered about 30 million meals to children in over 39 countries.

If you or your Kiwanis Club would like more information and would like to learn how to get involved please go the www.kidsagainsthunger.com.

17,000 children under the age of 5 die every day due to starvation and hunger related diseases. Get involved and be part of the solution to child hunger.
